

Healing Hands Response Force – System & Data Schema Diagram

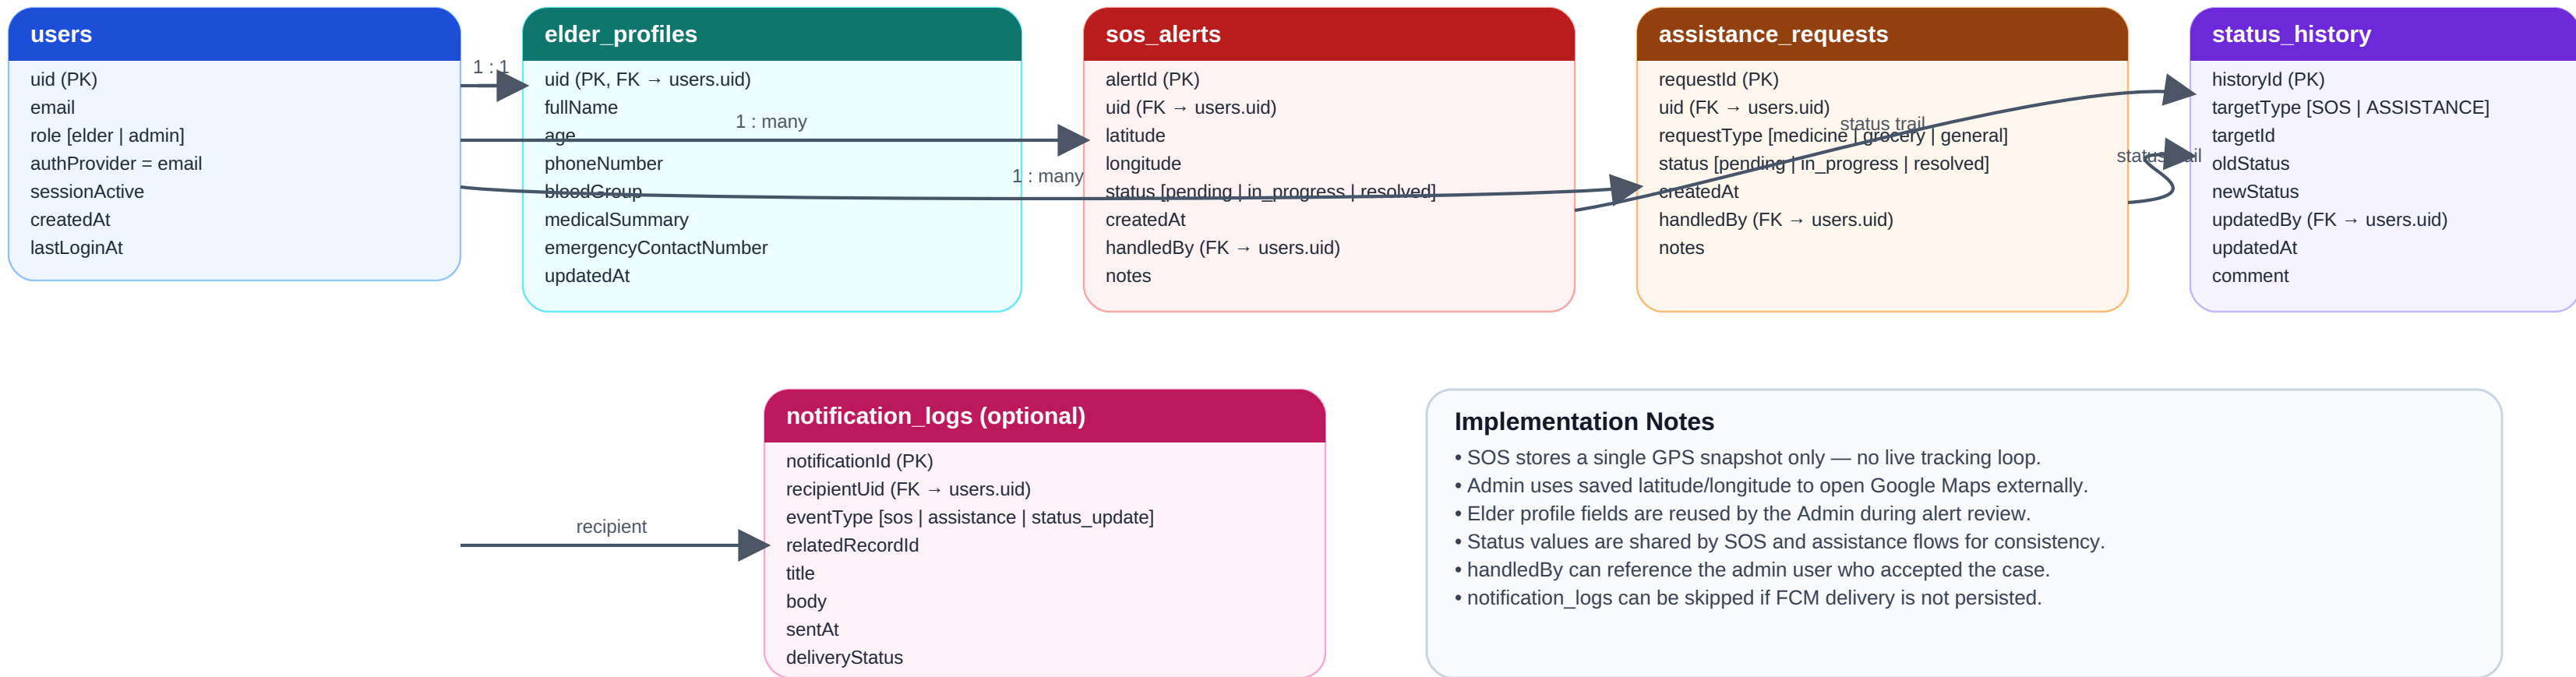

Based on the wireframe and requirements for the Flutter SOS & Elder Care Emergency App

A. Application / Service

B. Recommended Firestore / Database Schema

This schema matches the screens, the one-tap SOS flow, admin handling, and Firebase-based notifications.

Recommended implementation stack: Flutter app + Firebase Auth + Cloud Firestore + Firebase Cloud Messaging + device GPS + Google Maps external intent.

Status lifecycle: Pending → In Progress → Resolved

Assistance types: Medicine • Grocery • General

Role model: Single users collection with role-based behavior inside the same app.
